Summary: captain James cater an ex military officer thinks that all of his fighting days are over but...

1. Chapter 1: intorduction

This is my first fan fiction so it might not be the best

_But otherwise have fun unless you don't want to have fun that's cool too _

I sit in my pod awaiting for the drop. As I wait I fidget with we gear, oh who am I you ask?

Well don't want to boast but im the best at what I do. Orbital drops is my business yes im an orbital drop shock trooper or odst for short. I work with delta squadron the most experience team you can get.

"Delta squadron dropping in 5" that's my queue.

"Alright squad, code 2 distress beacons have been set off in the city below our mission is to locate these beacons and deal with whatever we find down there."

That's right im leader of this squad

"Captain Permission to speak sir"

"Permission granted silver"

Silver she's our sniper you don't want to piss her off she could easily land one between the eyes

"On our maps at 57, 127 theirs a cliff overlooking the city if I can get up there I can get a better view and can easily cover you, it's

not too hard to shoot trough glass"

"Why do you get to stay back out of danger?"

"Cameron what did I say about speaking out of turn"

"Sorry carter"

"You can address me as sir soldier"

"Dropping in 1"

"thank you yilvis(the ships a.i) and no silver im going to get you and lance on the mongoose and the rest with me on the warthog, are we clear"
>"yes, sir"<p>

"I got dibs on driving"

"Lance you can't dibs driving"

"Oh that reminds me, Cameron?"

"Yes, sir?"

"Dibs"

"Dropping in 3â€¦2â€¦.1, good luck not like you're going to need it"

That was my first chapter I hope you likes it so far next chapter I have some action in stall for the next chapter â€“ captain platpus

2. Chapter 2: backstory

**Chapter two yeah enjoy or not **

It was waiting.

As we drove into the city it was deserted not a body to be seen. I give the command for the two vehicles to split up to cover more ground, I wish I never made that command

"Sir, help its everywhere we don't stand a chance *smg spraying bullets*"

"Silver, what is it?"

"The flood"

The car stops at moment notice

"Sir, are you ok?"

"Cameron call for evac we need to get out of here!"

"Why sir what's the problem"

"Flood"

The warthogs screeches as it does a drift around a corner

"Silver, do you copy?"

"Copy"

"Im coming to you location"

"It's too late sir it's been a honour serving with you"

click of the pin of a hand grenade

"Silver no!"

distant explosion

As soon as I heard it I zoned out I had just lost a friend who I knew from day one.

"Sir LOOK OUT!"

The warthog had hit a flood carrier exploding sending the warthog into the air

As we came back do to earth I landed into a pond. But Cameron wasn't luck he was crushed by the warthog and yet again it was all my fault 3 soldiers in less than 3 minutes, a whole squad wiped out I was alone.

"Delta squad where are you"

The evac" this is captain carter the rest of the squad are KIA (killed in action)"

"What is you location?"

"2894, 3356"

I wish I could have taken that whole night back

As soon as major found out I had been cleared for duty. but I still wanted some action so I signed up for the police and here I am now a highway cop. I still get a moderate amount of action like high-speed chases or gang wars.

I miss the old days

And that's it for chapter 2 thank you for reading next chapter we start the real adventure!
